PROFESSIONAL SUMMARY

Results-driven SDET professional with hands-on experience in Python-based automation, test design, and AI-powered workflow tooling at Deloitte. Proficient in building automation frameworks using Python and Amazon Kiro, with end-to-end test case design and execution across functional and regression cycles. Delivered client-facing walkthroughs, secured formal approvals, and identified high-severity defects preventing production incidents. Passionate about engineering quality through intelligent tooling — including AI agents that bridge natural language with Jira workflows. Portfolio and live AI-powered project demos available at surya-is.me.

PROFESSIONAL EXPERIENCE

Associate Analyst — SDET (Automation) | Deloitte

Nov 2025 – Present

Quality Engineering Domain | Automation Track | Bengaluru

- Designed and executed end-to-end test cases across functional and regression cycles using Python and Amazon Kiro, improving overall test cycle efficiency by **40%**.
- Built an AI-powered internal agent using Amazon Kiro that auto-populates Jira ticket comments in natural language, saving **30+ minutes** per developer daily across the team.
- Developed a Jira requirements extractor automation reducing pre-execution preparation time by **50%+** — eliminating manual ticket traversal entirely.
- Conducted client-facing walkthroughs of test strategies; secured formal approvals across **3+ sprint cycles** with zero rework requests.
- Identified and escalated **10+ high-severity defects** before production release, directly preventing critical incidents.
- Collaborated with cross-functional teams on sprint quality metrics, defect triage, and continuous improvement of test coverage.

TECHNICAL SKILLS

Automation & QA: Selenium, Amazon Kiro, TestNG, Jira, qTest, End-to-End Testing, Test Case Design, Regression Testing, Defect Lifecycle Management

AI & Integrations: Amazon Kiro, NLP Workflow Automation, Jira REST API, Prompt Engineering

Languages: Python, C, JavaScript, Java, C++, R

Frontend: HTML5, CSS3, JavaScript, React.js

Backend & DB: Node.js, Express.js, PHP, MySQL, MongoDB

Security Testing: Penetration Testing, Ethical Hacking, Vulnerability Assessment

PROJECTS

AI-Powered Jira Daily Update Agent — Amazon Kiro · Jira REST API · Python

- Built an internal productivity tool using Amazon Kiro that converts plain-English stand-up updates into professional Jira comments and status updates — saving **30+ min/day** per developer.
- Adopted team-wide; received positive client feedback during sprint reviews for structured and traceable update logs.

Jira Requirements Extractor — Python · Jira REST API · Automation

- Automated full requirements retrieval from Jira using only an assignment brief as input, cutting manual lookup time by **50%+** and improving pre-execution traceability.
- Integrated into the team's test planning workflow across multiple sprint cycles with zero manual intervention.

Blockchain Voting System — Node.js · Express.js · Full Stack

- Engineered a full-stack tamper-proof online voting platform with secure, integrity-verified election management.
- Implemented admin panel for candidate management, election rule configuration, and real-time result display.

Personal Portfolio & AI Assistant — HTML/CSS/JS · Cloudflare Workers AI

- Designed and built surya-is.me, a fully animated developer portfolio themed around CI/CD pipelines and test automation.
- Integrated a live LLM-powered chat assistant (via Cloudflare Workers AI) that answers visitor questions about my experience and projects in real time.

EDUCATION

Master of Computer Application (MCA) | IGNOU — Online

In Progress | Jan 2026 – Present

PGCET | Karnataka Examinations Authority

Rank 44 | 2025

Bachelor of Computer Application (BCA) | P.E.S.I.A.M.S — Kuvempu University, Shivamogga

8.9 CGPA | 2025

12th — PUC | Vikasa PU College, Shivamogga

91% | 2022

10th — SSLC | Vikasa School, Shivamogga

93% | 2020
